

# Guest Photo Guidelines

Thank you for joining us for an episode of The Four Top! We love sharing guest photos from our podcast to promote your episode on our owned-and-operated channels.

Below are some guidelines for guest headshots to ensure that you can look your best.

- **High resolution.** 300 DPI is best, but simply put, please avoid sending us a blurry or low-res photo.
- **Show us your face!** We love an artsy shot, but our listeners want to see you—ideally facing forward, with nothing blocking your face.
- **Front and center.** That means YOU, not your dog or your desk, in the foreground.
- **More than arm's length.** We love a good selfie, but please send a photo that someone else (or your self-timer or robot friend) has taken of you.

Check out the next slide for some star examples from guests of seasons past!
